Promoting the Professional, Social, and Personal Interaction between
Members of the Fleet Management Profession

SGFMA is offering another **FREE** Training Class for our Membership

SRS-(Safety Restraint Systems)

This class is **ESSENTIAL** for Managers, Shop Foreman, and Technicians. The class will be result driven for all leaders and persons responsible for and/or safely diagnosing problems and making repairs to any and all safety restraint systems and components. These systems are **dangerous** and pose a threat for repair technicians and vehicle operators unless the correct procedures, tools, and available **TRAINING** are a part of the repair plan for **SRS** in our fleet vehicles. Join us for a focused and informative training session to empower your technicians and help keep them safe while handling the vehicle SRS system repairs in your facility. Class outline is as follows:

- Types of SRS systems and component locations
- Safety Precautions—A close look at WHY and WHY NOT!!!!
- In vehicle REPAIR precautions and considerations
- First Responder – The right to know—The need to know for everyone’s safety.
