# Diagnosing Multiplexed Data Bus Networks

(To be successful with electrical diagnostics and repairs to the complex systems on cars and trucks today the repair technician must have a working knowledge of diagnostic testing equipment and the information they obtain by using the testing equipment)

*Diagnosing complex network system failures is a challenge even for experienced technicians. In this seminar, technicians will focus on diagnostic strategy to hone their problem solving skills for serial data failure modes in multiplex networks. Included network protocols: CAN, LIN, GMLAN, MOST®, and repair methods will be covered.*

*Also, an update and overview of HVAC- 1234 to increase awareness of the upcoming changes technicians will need to know to repair 1234 systems.*

**Instructor: Bryan Blackwelder**

General Motors Customer Care Product Specialist

**August 17th, 2017-----9:00 AM to 3:00 PM**

**Location: City of Rock Hill**

757 S. Anderson Rd  
Rock Hill, SC 29730

**Free Lunch will be sponsored by SGFMA**

**Registration Deadline is August 4th and class is restricted to the first 60 people to register**

Contact for training: Jimmy Brown -cell: 864-377-2284 or Brian Bloomer –cell: 864-344-1891
